21.10.2026

INVITATION

Dear Mrs./Mr.,

We are pleased to invite you to participate in the workshop entitled "*The use of genetic resources to create intra and interspecific variability in order to improve hazelnut, walnut, almond and edible chestnut varieties*", which will take place on **October 29, 2026**, starting at 14.00, in room **C238** of the Faculty of Horticulture, in the central building of the University of Craiova.

The purpose of this workshop organized within the project no. 6.1.2./2023 funded by the ADER Sectoral Research Plan 2023-2026, coordinated by the Ministry of Agriculture and Rural Development (MADR), is to provide participants with the necessary tools and knowledge to identify, evaluate, conserve and use the genetic resources available to obtain new genotypes of walnut, hazelnut, sweet chestnut and almond for the improvement of variety varieties, in the context of climate change and current challenges in the field of fruit growing.

We are looking forward for your participation,

Prof. dr. Mihai Botu

ADER Project Director 6.1.2./2023
